Personal Profile

I am a Diploma in Business Information Technology graduate with a passion for solving today's business challenges using computer programming. I have strong technical skills and interpersonal skills that enable me to work well with others. I am seeking a rewarding career in Data Science and Machine Learning in an environment where I can grow my analytical skills and make a positive impact on the organization I work for. I am also passionate about community development and I founded a program to help people with busy schedules attend their weekly meetings through Online Chama.
