CAREER OBJECTIVE

Detail-oriented Data Analyst with a passion for leveraging data insights to drive innovation in the optics industry. Proven proficiency in Python, R, and SQL. Excited to apply analytical skills to optimize processes and contribute to advancements in optics technology.

EDUCATIONAL BACKGROUND

2022 - **Moringa School**
Certificate, Data Science

2021 - **Strathmore University**
Business Information Technology
I graduated with a merit.

2017 - **Sawagongo High School**
Kenya Certificate of Secondary Education

WORK EXPERIENCE

Aug 2022 – August 2022 **Omdena Local Chapters**
Junior Data Scientist

Responsibilities:

- Primary contact for client service teams for several projects.
- Conducted rigorous data validation on optical systems data for various suppliers.
- Primary contact for client service teams for several projects.
- Researched and resolved data discrepancies with troubleshooting teams.
- Collaborated with cross-functional teams to troubleshoot and resolve technical issues related to optical tracking systems.
- Merged data with existing datasets, careful to keep old datasets and documentation.
- Communicated effectively with project management regarding issues and needs for projects.

July 2022 – August 2022 **University of Nairobi**
Data Analysis Trainer

Responsibilities:

- Facilitated training sessions on key data analysis concepts.
- Developed content to be taught in the sessions.
- Conducted regular catch-up sessions to ensure content was well understood.

December 2017 – March 2022   Kuku Center Farm

Data Analyst

Responsibilities:

- I performed in-depth data validation on data from various suppliers.
- I was the primary contact for client service teams for several projects.
- Researched and resolved data discrepancies with troubleshooting teams.
- Merged data with existing datasets, careful to keep old datasets and documentation.
- I communicated effectively with project management regarding issues and needs for projects.
- I provided insight on current data management techniques including assisting with analysis and providing technical recommendations on work software.

COMPUTER PROFICIENCY SKILLS

Languages - Kiswahili, **native speaker**; English, **fluent**

IT - **Programming languages**: Python, R, JavaScript, CSS and HTML 5

Skills/Tools - **Quantitative and statistical analysis tools:** SQL Server Reporting Services (SSRS), SQL Server Analysis Services (SSAS), Python, and R, PostgreSQL, ETL.

Technical: - **Operating Systems:** Windows (XP, 7, 8, 8.1, 10, and 11), Mac, Linux
IT Support: System administration, user management, troubleshooting, and user support.
Databases: SQL Server, MySQL.
Cloud computing services: Amazon Web Services and Google Cloud Platform.
ERPs: Unit4 Business World (OCS) and Business Management Platform by Corporater.
Collaborative Platforms: GitHub, VM Ware, and Office 365.
Office Suite Software: Microsoft Office 2007-2019

Interpersonal Skills: Teamwork, accuracy, analytical skills, presentation skills, and performance management.

EXTRACURRICULAR ACTIVITIES

- Member of Dream with Code (2019 – 2021) (Volunteer work).

LEADERSHIP POSITIONS HELD

- Class Representative for Data Science class (2022) at Moringa School.

INTERESTS

- Hiking
- Swimming and Travelling
- Singing
- Filling Puzzles
- Biking
- Reading Books
